

A young girl with her hair in a bun, wearing a striped t-shirt and jeans, is smiling and holding up a large, patterned blanket in a grassy field. In the background, there is a brick building and trees.

**Is your child
protected
against polio?**

All children aged 1 to 9 in Greenwich are being offered a polio vaccine. For some children this will be an extra dose, for others it will bring them up to date with their routine vaccinations.

If your child is aged 1 to 4 local NHS services will be in contact to book your vaccine.

If your child is aged 5 to 9 you can book your appointment now.
